FORWARDING BUSINESS

# TRADITION AND EXPERTISE

**Moving you forward since 1897 – personally, digitally, and sustainably.**

As a global, family-owned freight forwarding company, we are driven by a deep passion for service excellence. Our goal is not to be the biggest, but the best at what we do.

With the extensive knowledge and expertise of our team, you benefit from customized logistics solutions, sustainable services, and the analysis and optimization of your supply chains. We provide tailored transport solutions and a wide range of value-added services that move your business forward.

Over 1,400 dedicated transport and logistics professionals at more than 65 locations worldwide are committed to addressing your needs and finding the smartest, most efficient ways to support your success with expertise and enthusiasm. Additionally, we leverage market-leading digital technologies to make your supply chains more transparent, secure, and high-performing.

We move you forward and make things uncomplicated for you – with our digital solutions and through direct dialogue.

# OUR VALUES

---

## Esteem

Friendliness, politeness, and respect are fundamental to us – regardless of hierarchy and culture. We uphold these values worldwide, both among employees and in selecting partners.

---

## Willingness to perform

Every day, we strive to deliver the best services and solutions to you. This is only possible through commitment, courage and dedication – qualities that characterize each of our employees. As a company, we provide the necessary space and foster motivation for this.

---

## Partnership

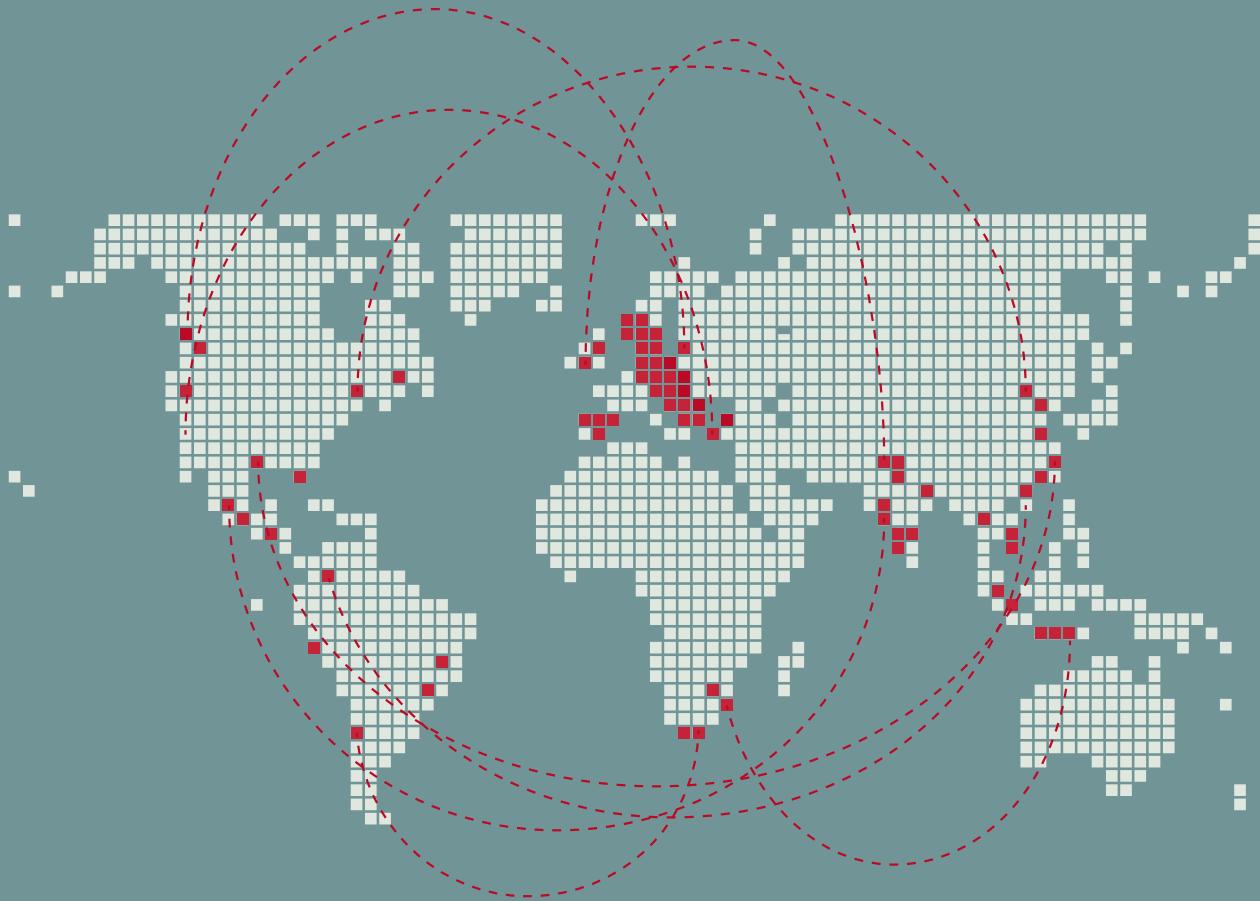

As a partner on equal footing we place great value on reliability, honesty, and trust. We believe in developing opportunities together. These principles apply not only when dealing with customers and partners, but also within the company.

---

## Responsibility

We take responsibility in every aspect for our customers, partners, and colleagues. Ethical awareness and human action intersect with ecologically sustainable planning, continuous employee development, and a sense of duty towards customer goods and data.

# REPRESENTED AT MORE THAN 65 LOCATIONS WORLDWIDE

This means we are directly on site for you and very close to your goods, we understand the local conditions and speak the same language.

# SEAMLESS CONNECTIONS, WORLDWIDE: YOUR KEY TO EFFICIENT LOGISTICS

Supply chains are becoming more and more complex. We master the combination of different transport modes and choose the best way for your requirements.

---

## Sea Freight

As one of the world's leading sea freight forwarders, we maintain strong, long-standing partnerships with all major shipping lines. This enables us to provide port and route solutions precisely tailored to your needs. From containers and bulk cargo to complex project freight, we identify and coordinate the most suitable carriers for your requirements and provide reliable, end-to-end solutions with seamless multimodal pre- and on-carriage aligned with your schedule.

---

## Air Freight

When speed and reliability matter, our air freight solutions deliver. We coordinate and monitor your shipments worldwide - including cross-trades, multimodal transport, full and partial charters, freight consolidation, and tailored door-to-door concepts. As an IATA-regulated agent and member of IFLN and IGLU, we ensure secure handling, global reach and competitive rates.

---

## Overland Freight

Whether with our own fleet in Europe and South Africa or in cooperation with reliable subcontractors worldwide - we place the utmost importance on the quality of our drivers, vehicles, and partners. Your goods are in safe hands and will be delivered cost-efficiently and on time, whether it's a conventional shipment or a heavy or specialized transport. In addition, our comprehensive warehousing solutions ensure secure and efficient storage, tailored to your logistical needs.

---

## Rail Transport

Sustainable, efficient, and ideal for high volumes - by shifting freight from road to rail, we help ease the burden on road infrastructure and minimize environmental impact. As a key partner of both state-owned and private rail operators, we offer reliable, eco-friendly rail solutions.

---

## Inland Shipping

Our specialized barge services offer direct board-to-board handling - reducing cargo movements and cutting costs. With strong ties to weather-independent terminals and EDI integration, we ensure smooth, efficient transport. When needed, we coordinate road and rail connections and liaise with local ports and authorities for a seamless logistics flow.

**We don't aim to be the biggest in what we do, but the best.**

**That's why we prioritize customer proximity, reliability, and willingness to perform beyond the ordinary.**

# YOUR BENEFITS

---

## **Straightforwardness is our trademark.**

We offer fast, clear, and fully integrated logistics solutions — the foundation of our daily work. With one personal point of contact, you benefit from seamless coordination and the comfort of a true all-in-one service.

---

## **Optimization is our strength.**

We boost the performance and value of your supply chain. Whether improving service levels, shortening transit times, or reducing costs — our customized solutions and innovative IT systems deliver measurable results.

---

## **Industry knowledge is our tradition.**

With decades of hands-on experience and deep process knowledge, we understand the unique needs of your industry. Our close connection to both customers and goods allows us to select the best transport options for every situation.

---

## **Nimbleness is the foundation of our success.**

Our lean structures enable us to act quickly and efficiently. We adapt processes swiftly, make fast decisions, and stay flexible — ensuring your projects are implemented on time and with precision.

---

## **Taking care is our daily business.**

When complex supply chains face challenges, we step in and take responsibility. Our dedicated team members are passionate service providers — reliable, proactive, and committed to making things run smoothly. We take care.

# OUR SUPPLY CHAIN SOLUTIONS SPECIFICALLY FOR YOUR INDUSTRY

**Every product presents its own individual challenges. We have gained profound knowledge about the respective products with our clear focus on the industry and can organize the transport and supply chain in the best possible way.**

---

## **Forestry Products**

Our regularly trained colleagues take care of your sensitive goods and offer you tailored logistics concepts for import, export, and cross-trade shipments worldwide. With over 10 million tons of shipments transported annually, we are the world's leading expert in forwarding paper and pulp. There's nothing we understand better than the challenges of transporting wood and paper products.

---

## **Metals, Minerals & Chemicals**

Metals, minerals, and chemical products each have their own product-specific transport requirements. Through our long-standing relationships in the steel, construction materials, and chemical industries, we have developed deep expertise in handling their unique requirements.

---

## **Agricultural Commodities, Food & Beverage**

Large volumes, cost-sensitive products, complex logistics – we have the experience, agility, and creativity to handle it all in agricultural commodities, food, and beverages.

---

## **Mechanical Engineering**

Deliveries in mechanical and plant engineering rely on the global coordination of multiple supply streams. As a logistics partner with a worldwide network, we can provide all-in-one solutions tailored to these needs. With many years of experience, we handle heavy and oversized cargo with expertise and reliability.

---

## **Consumer Products**

Our logistics solutions for importers and companies with production facilities abroad are customized to meet each customer's specific requirements. We provide alternative routes and flexible options to help optimize your supply chain and reduce logistics costs per unit.

More Information

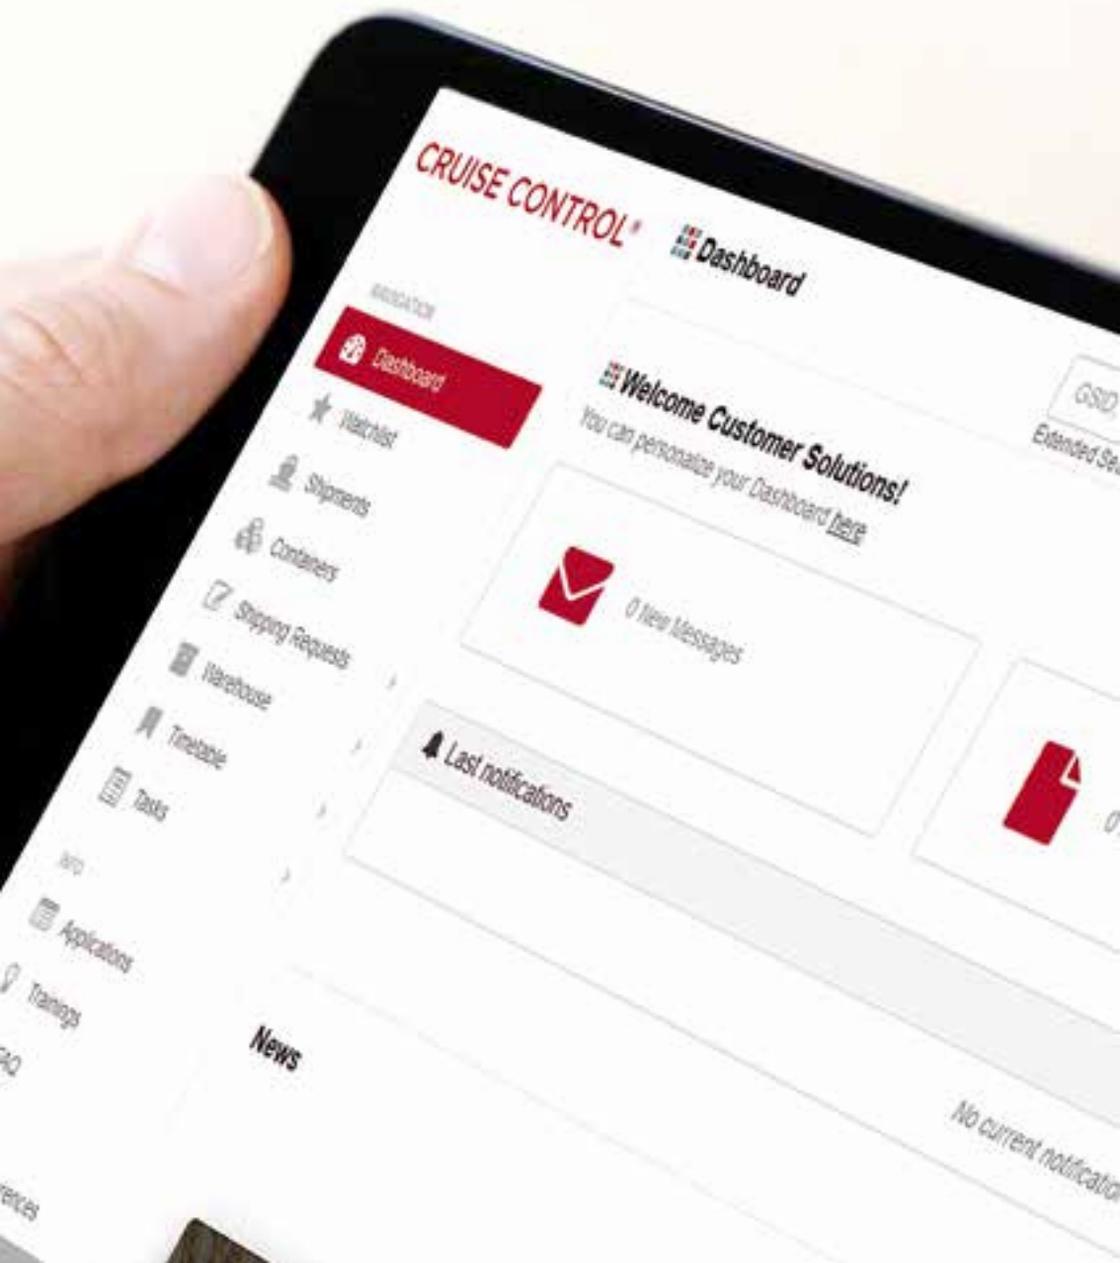

“

**The success of our company is directly linked to our many dedicated people, their commitment, and their ideas. They are what make Fr. Meyer's Sohn the company it is today.**

# CRUISE CONTROL®

# STAY ON THE RIGHT TRACK WITH US

**These days, an efficient supply chain can be the deciding factor for success.**

Cruise Control is a web-based supply chain management platform offering full control over your logistics processes. The app transforms complex supply chains into clear overviews and tasks. This simplifies management and reduces the risk of disruptions. Stay informed and benefit together with your partners from a single point of truth as well as a centrally organized project collaboration.

---

## Shipment Visibility

Cross carriers tracking, alerting and deviation monitoring in one place. Available for ocean, overland, rail and air freight as well as 4PL.

---

## Document Management

Customizable management process for all parties involved. Exchange, correction and approval of documents e.g. Bs/L in one central location.

---

## Partner Collaboration

Customized partner dashboards, visibilities and workflows provide a single point of truth and give access, tailored to specific responsibilities.

---

## KPIs & Reporting

Metrics for analysis and evaluation of volumes, service providers, ports, lanes etc., available as standard setup or as customizable extension.

---

## Order Management

Online monitoring process for goods procurement enables transparent supplier monitoring and order management until shipping.

---

## Warehouse Solution

Warehouse inventory monitoring and upload of inventory data for global and cross-partner warehouse planning and management.

**Most important:** We use a variety of security measures and technologies to ensure a safe and data-compliant collaboration.

# SUSTAINABILITY

**Our company's fundamental stance is one of responsibility and holistic thinking. Already today, we are thinking and acting with consideration for the world of tomorrow. This is something we implement systematically, from our collaboration with our customers to building up our sites around the world and, in particular, how we treat our employees.**

---

## **Responsibility for our employees**

Taking care of our employees has been a top priority for generations. We provide safe, health-promoting workplaces at our sites worldwide and are committed to treating everyone with respect.

---

## **Responsibility for our customers and partners**

At Fr. Meyer's Sohn, we base our actions on a deep appreciation for the unique needs of our customers, and this commitment is reflected in all our solutions.

---

## **Responsibility for the environment**

As a global transport and logistics company, Fr. Meyer's Sohn has an impact worldwide and a responsibility to use resources responsibly.

---

## **Responsibility for society**

As a family-owned business, we act responsibly as members of society around the world. We initiate and support social and cultural projects at our national and international sites.
